

COMPANY PROFILE

Introduction:

Sigma offers you an extensive range of the best business solutions and servers. We proudly hold association with the biggest network of suppliers both locally and internationally and with the zeal commitment of our team we are able to deliver not just the best products but also one-of-a-kind services to all clients. We also offer warranty from the manufactures and complete after delivery services wherever you're located.

With our association and massive network of recognized and legal international vendors, we are able to fulfill the need of our every customer and are able to supply and provide products that are otherwise unavailable elsewhere.

Sigma is dedicated in fulfilling its customers every single need and providing remarkable customer service in doing so. Our team of highly talented and dedicated human resource helps us overcome any minor or major obstacle and whereby we provide you with nothing but the very best services.

- To offer you the most options and choices we offer you a free market business model so it benefits all the parties involved in the transaction or deal.
- We aim for nothing but the very best, our business model has been set to meet the international standards of competency and professionalism. We offer you over 1000 products from the top notch brands to make sure you're getting all your needs served from one place.

Ever since our start, we have been religiously committed to provide outstanding products and customer services to our customer and made professionalism, honesty and dedicated hard work the core elements of our work ethic. And, there is little doubt that this commitment has lead us to become one of the fastest growing ICT solution business of Pakistan.

Our business model and its values are incorporated around the following disciplines.

- Honesty
- Commitment
- Professionalism

We firmly believe to run smoothly and to satisfy our customers; we must incorporate professionalism with 100% commitment and honesty in every aspect of our business and for that we are committed for both personal and professional growth of our employees, treating them as family. We strive to incorporate every aspect of fine line technology to be the front runner of our company's services and branding.

Why should you choose Sigma Technologies?

Our concrete alliance to the top notch premiere business and distributing units of the world has enabled an upper hand in providing you the finest products in IT. With the support of our partners we promise what we deliver at a very good market promises. Sigma doesn't believe in keeping empty promises and we don't promise anything that is undeliverable. We are firm keepers of our words and offer exactly what we promise which less nothing than the best in the market. Also, with our extensive network of distributors we are able to deliver you products that you will otherwise not find in the market. With our partners abroad we are easily able to import and distribute within Pakistan, all following the rules and regulations of the Chambers of Commerce of Pakistan.
